

## Season 2010

We have just returned from a successful test day at Circuit Park Zandvoort. There were about 35 karts and Super ICC karts there and these test days will continue for the foreseeable future. A new test will be on 23 July. Several new drivers from Germany and the Netherlands have obtained their International C permit and drove the test and will be joining our series.

We have started a large publicity campaign for our race in Dubai 2011 to all continents.

Our season will start at the beautiful TT Circuit of Assen 14<sup>th</sup> – 16<sup>th</sup> May in front of a large number of spectators as we are part of the program for the Formula Superleague series. Not only is this a tremendous way to start the series, but gives drivers a great chance to prepare for the EK, which we organise for August.

Due to the economic crisis some drivers are unable to compete this season, who will be missed, but on the other side we have some new drivers from the Netherlands, Germany, England and Finland. With many top drivers entered for the start of the season we will have a very competitive field.

This year we will cooperate for the first time with the French organisation and we hope that the cooperation will be as successful as with the English organisation. We hope that cooperation between organisations that treat Superkarts professionally and have a soft spot in their hearts will conserve and expand the great environment and atmosphere that is Superkart racing.

Finally a good offer from Elf for the races at Magny Cours (you can buy it now, and use it in Assen, the EC.)

Een package with: 50 litres SK35, 1 litre HTX 909 of HTX 976, 2 x 50 litres Gasoil, 5 x spray N contactspray. For € 300,00 Interested? Mail: [dasian@superkarts.eu](mailto:dasian@superkarts.eu)

We hope to meet you all in May at the TT Circuit Assen to put on a great spectacle for the general public.

Met vriendelijke groeten,  
Dasian, Henk en Jasper
